

500 Mold Life Injection Molding Service 1500 X 1200mm

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Lead Time: 3-4 Weeks
- Mold Life: 500,000-1,000,000 Shots
- Service Type: Injection Molding Services
- Process: Injection Molding, Overmolding, Insert Molding, Etc.
- Mold Base: LKM, HASCO, DME, Etc.
- Material: ABS, PC, PP, PA, POM, Etc.
- Software: UG, Pro/E, SolidWorks, Etc.
- Surface Finish: Polishing, Texturing, Painting, Etc.
- Highlight: **LKM Injection Molding Services,**
HASCO Injection Molding Services

Product Description

Product Description:

Injection Molding Services is a comprehensive solution for plastic molding, offering the best quality service for custom-made plastic parts. Our team of experienced professionals are experienced in utilizing software such as UG, Pro/E, SolidWorks and other software to ensure that your product is made to the highest standard. Our injection molding process is suitable for producing parts of varying complexity and size, from simple to complex, from small to large. We guarantee a high level of tolerance of $\pm 0.05\text{mm}$ and lead time of 3-4 weeks. We have the capacity to use a variety of materials, including ABS, PC, PP, PA, POM and others. Our state-of-the-art technology allows us to provide the highest quality plastic molding services, from simple overmolding to complex insert molding.

Features:

Product Name: Injection Molding Services

Size: Max. Mold Size: 1500 X 1200mm

Tolerance: $\pm 0.05\text{mm}$

Lead Time: 3-4 Weeks

Process: Injection Molding, Overmolding, Insert Molding, Etc.

Equipment: CNC, EDM, Wire-Cutting, Etc.

Highlights:

Molding Process Injection

Injection Molding Service

CNC

EDM

Wire-Cutting

Technical Parameters:

Service Type	Tolerance
Injection Molding Services	$\pm 0.05\text{mm}$
Cavity	Surface Finish
Single Or Multi-Cavity	Polishing, Texturing, Painting, Etc.
Material	Mold Base
ABS, PC, PP, PA, POM, Etc.	LKM, HASCO, DME, Etc.
Equipment	Process
CNC, EDM, Wire-Cutting, Etc.	Injection Molding, Overmolding, Insert Molding, Etc.
Weight	Software
Max. Mold Weight: 10,000kg	UG, Pro/E, SolidWorks, Etc.

Applications:

Ywy's Injection Molding Services offer high quality plastic molding injection. Our services are available for single or multi-cavity molds and can be customized to meet your specific needs. We use advanced software such as UG, Pro/E, SolidWorks, etc. to design and create the highest quality molds. Our molds have a maximum weight of 10,000kg and a life of 500,000-1,000,000 shots. We guarantee that our plastic injection molding services will deliver the best results you can expect in the industry.

At Ywy, our plastic injection molding services are designed to meet the highest standards of quality and efficiency. We use state-of-the-art technology and advanced techniques in order to ensure that each mold is created to the highest precision. Our team of experienced engineers and technicians are dedicated to providing customers with the best possible service. We are committed to providing our clients with the best service and results possible.

Our plastic injection molding services are reliable, fast, and cost-effective. We have the capability to produce high volumes of molds in a short period of time. Our services are backed by our experienced team of engineers and technicians that are available to assist with any questions or issues you may have. We guarantee that our plastic injection molding services will meet your requirements and provide you with the best results.

Ywy offers a wide range of plastic injection molding services that can be tailored to meet your specific needs. We are committed to providing our customers with the highest quality services and products. Our experienced team of engineers and technicians are dedicated to providing you with the best service and results possible. If you are looking for reliable and cost-effective plastic injection molding services, look no further than Ywy.

Customization:

Custom Injection Molding Services From ywy

Product Details

Brand Name: ywy

Model Number: ywy333

Place of Origin: Guangdong, China

Process: Plastic Molding Injection, Overmolding, Insert Molding, etc.

Weight: Max. Mold Weight: 10,000kg

Cavity: Single or Multi-Cavity

Surface Finish: Polishing, Texturing, Painting, etc.

Equipment: CNC, EDM, Wire-Cutting, etc.

ywy provides custom injection molding services for a variety of plastic products made from Plastic Injection Molding. Our injection molding process can handle parts with weight up to 10,000kg and offer single or multi-cavity molds. We also offer various surface finish options such as polishing, texturing, and painting. With our advanced equipment including CNC, EDM, and Wire-Cutting, we can ensure that our parts meet the highest quality standards.

Support and Services:

Injection Molding Services Technical Support and Services

We provide a full range of injection molding services to meet the needs of customers. Our services include:

Design and engineering services to ensure your parts meet your specifications

Material selection and evaluation to ensure the best part performance

Process planning and optimization to ensure repeatability

In-house tooling fabrication and maintenance

Prototype and low-volume production

High-volume production

Post-molding operations including secondary operations, assembly, and packaging

Delivery and logistics

Our team of experienced professionals is here to provide you with the best service and technical support possible, from the initial design to the final product delivery.
