

Custom Injection Molding Services Precision ABS PC PP PA POM Parts

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy333

Product Specification

- Size: Max. Mold Size: 1500 X 1200mm
- Mold Base: LKM, HASCO, DME, Etc.
- Surface Finish: Polishing, Texturing, Painting, Etc.
- Software: UG, Pro/E, SolidWorks, Etc.
- Lead Time: 3-4 Weeks
- Equipment: CNC, EDM, Wire-Cutting, Etc.
- Material: ABS, PC, PP, PA, POM, Etc.
- Mold Life: 500,000-1,000,000 Shots
- Highlight:

**ABS Injection Molding Services ,
PP PA Injection Molding Services ,
POM Injection Molding Services**

Product Description

Product Description:

Our lead time for Injection Plastic Molding services is typically 3-4 weeks, allowing for efficient and timely production. We offer a variety of surface finishes, including polishing, texturing, painting, and more to meet your desired aesthetic and functional requirements.

Our Injection Plastic Molding process includes overmolding and insert molding options, allowing for the creation of complex and multi-component parts. With our expertise and attention to detail, we can help you bring your ideas to life and achieve your desired product specifications.

Features:

Product Name: Injection Molding Service

Tolerance: $\pm 0.05\text{mm}$

Lead Time: 3-4 Weeks

Software: UG, Pro/E, SolidWorks, Etc.

Equipment: CNC, EDM, Wire-Cutting, Etc.

Cavity: Single Or Multi-Cavity

Technical Parameters:

Surface Finish	Polishing, Texturing, Painting, Etc.
Process	Injection Molding, Overmolding, Insert Molding, Etc.
Material	ABS, PC, PP, PA, POM, Etc.
Size	Max. Mold Size: 1500 X 1200mm
Cavity	Single Or Multi-Cavity
Equipment	CNC, EDM, Wire-Cutting, Etc.
Weight	Max. Mold Weight: 10,000kg
Tolerance	$\pm 0.05\text{mm}$
Mold Life	500,000-1,000,000 Shots
Lead Time	3-4 Weeks

Applications:

Our Injection Molding Services use only the best Mold Bases, including LKM, HASCO, DME, and other top brands. We also utilize the latest software, such as UG, Pro/E, SolidWorks, and more, to ensure that every project is designed to perfection.

Our state-of-the-art Equipment, including CNC, EDM, Wire-Cutting, and more, allows us to provide a wide range of processes, including Injection Molding, Overmolding, Insert Molding, and others. Whether you need a simple prototype or a complex, multi-part project, we have the tools and expertise to get the job done right.

Our Injection Molding Services are perfect for a variety of applications and scenarios. For example, our high-quality injection molding can be used in the automotive industry to create durable and reliable parts that can withstand the rigors of daily use. Our overmolding services are great for creating products with multiple materials, such as grips for tools or handles for luggage. And our insert molding can be used to create products with metal or other materials embedded directly into the plastic, such as electrical components or medical devices.

So if you're looking for a reliable, high-quality Plastic Injection Molding Service, look no further than ywy333. With our top-of-the-line Mold Bases, Software, Equipment, and Processes, we can help you create the perfect product for your needs!

Customization:

Support and Services:

Our Injection Molding Services product is supported by our expert technical team who are available to provide assistance with any technical issues or questions you may have. We offer a range of services including mold flow analysis, tool design and maintenance, and material selection to ensure your product is manufactured to the highest quality standards. Our team can also provide training and on-site support to help optimize your production process and maximize efficiency.

Packing and Shipping:

Product Packaging:

All injection molding products will be carefully packaged to ensure they are protected during shipping. Each product will be wrapped in bubble wrap and placed in a sturdy cardboard box. The box will be labeled with the product name and any necessary handling instructions.

Shipping:

Our injection molding services are available for shipping worldwide. We offer a variety of shipping options to suit your needs and budget. Standard shipping is available for all orders and typically takes 5-7 business days. For faster delivery, we also offer expedited and overnight shipping options. Shipping costs will vary depending on the size and weight of your order, as well as the shipping destination.

FAQ:

Q: What is the brand name of the injection molding service?

A: The brand name of our injection molding service is ywy.

Q: What is the model number of the injection molding service?

A: The model number of our injection molding service is ywy333.

Q: Where is the injection molding service manufactured?

A: Our injection molding service is manufactured in guangdonghuizhou.

Q: What type of materials can be used with the injection molding service?

A: Our injection molding service can handle a wide variety of materials including ABS, PC, PP, and many more. Please contact us for more information on specific materials.

Q: What is the lead time for the injection molding service?

A: The lead time for our injection molding service depends on the quantity and complexity of the parts. Please contact us for a quote and estimated lead time.
